

A Sample PubMed/MEDLINE Search On Acupuncture

Many people believe that there is no scientific research on the use of acupuncture. In fact there are thousands of published papers examining the efficacy of acupuncture and Asian medicines. The following is a 500 article sample PubMed/MEDLINE search on articles dated from 1991 to the November of 2006 using acupuncture and related modalities as the search criteria. 8767 articles were identified.

Search criteria:
